Saab Capabilities on Show at IDEX 2017

Defence and security company Saab is showcasing its global portfolio of smarter solutions at the Abu Dhabi National Exhibition Centre, from 19 to 23 February, stand 07 - B41. Visit to see and hear how Saab's solutions give customers' capabilities the vital edge.

At IDEX, Saab will showcase how it works closer and more effectively with its customers to enhance their capabilities and achieve the customer's military or civil goals. Daily **mini-talks** delivered on the stand at **11:00, 13:00** and **15:00** by Saab experts, will explore the latest themes in security and protection of society, focusing on identifying challenging targets by radar, responding to CBRN incidents and search & rescue at sea.

The centerpiece of the Saab stand will be the airborne **GlobalEye** AEW&C system. GlobalEye is an all new capability designed to ensure decision makers have the necessary information to secure their territorial boundaries against wide ranging military and non-military threats. Also on display will be the UMS **Skeldar** VTOL UAV that due to its versatility is ideal for a wide range of missions.

Saab will display the world-famous **Giraffe** radar family and announce the new **CoastControl** coastal surveillance systems for coast guards. Both give customers' the means to ensure the integrity of their national airspace and coastlines.

Also shown will be Saab's **training and simulation** solutions that, be it for combat operations or responding to disasters, ensure personnel have the confidence and tactics to overcome the real life challenges they face when in an operational environment.
