## NEWS FROM SAAB

March 1 2017  
CUE 17-015

### **Saab on Display at World Air Traffic Management Congress 2017**

Defence and security company Saab will be exhibiting its full range of air traffic management solutions at the World ATM Congress, 7 to 9 March 2017 in Madrid, Spain. Please visit us on Stand 305.

Visit Saab's stand to see and hear about our comprehensive range of air traffic management solutions including Integrated Tower, our third-generation Surface Movement Radar and our Automated Weather Observation System. Saab's solutions increases the effectiveness and efficiency of modern, safe airport operations and air traffic management.

We will also have the pleasure of presenting Saab Digital Air Traffic Solutions. This new joint venture will leverage our partnership with the Swedish air navigation service provider, LfV, to further drive the market development of our unique Remote Tower, which will also be on display at our stand.

Saab will host a series of activities led by our world leading experts in their field and the media are invited to attend the following events:

Interviews with Mike Gerry, head of business unit Air Traffic Management, are available at the Saab stand. Come and discuss why so many high profile operators, such as San Francisco Airport, have chosen Saab air traffic management. See contact details below to arrange an interview.
