

SAAB

MRO & TRAINING

RESCUE HOIST AND CARGO HOOK SYSTEMS

Saab delivers comprehensive Maintenance, Repair and Overhaul (MRO) support and services for a range of systems. We work globally with the most demanding operators and companies in the aviation industry.

**FIRST-CLASS MRO SERVICES
AND SUPPORT**

As a service centre for Breeze-Eastern, we are equipped to handle all major helicopter rescue hoist and cargo hook systems for maximum safety and reliability. Our expertise and unique testing facilities enable us to provide first-class MRO services and support, with rapid turnaround times and highly competitive prices. Our wide customer base includes the Swedish armed forces, several European

armed forces, governmental agencies and commercial operators.

To help improve system reliability and avoid downtime, we also provide training seminars for flight line maintenance.

Our MRO services are based on close, efficient communication, with a dedicated team of personnel that are immediately available to meet your needs.

**RESCUE HOIST AND
CARGO HOOK SYSTEMS**

We perform complete overhaul, tests, repairs and modifications on the following Breeze-Eastern rescue hoist and cargo hook systems:

Rescue hoists:

- BL-29900 series
- BL-10300 series
- BL-20200 series
- BL-27100 series
- BL-16600 series
- BL-29700 series

Cargo hooks:

All models

TRAINING SEMINAR PROGRAM

We also provide customised training seminars at Saab or your site, for flight line maintenance on the rescue hoist and the cargo hook systems that we support. These training seminars help you to improve system reliability, avoid downtime and strengthen your team's understanding of the systems.

Saab's full MRO capability is described on www.saabgroup.com.

SAAB

IN-HOUSE CAPABILITY

Saab has a very extensive in-house component maintenance capability which covers more than 8,000 part numbers for fixed wing and helicopter systems. We provide solutions for components such as instruments, avionics, hydraulics, pneumatics, fuel, power supply, environmental control, oxygen, fire extinguishing, auxiliary power units, landing gear, propellers, composites and metal structures.

Specifications subject to change without notice

CERTIFICATES

Saab is certified by several civil and military authorities and has a wide range of certificates including, but not limited to, EASA 145, FAA 145, TCCA, CAAC, ISO 9001 and ISO 14001. We also hold a military certificate as a maintenance organisation in accordance with RML Part V-6A.
