This memo outlines the obsolescence details of the following product(s) and all associated components / sub assemblies.

TDX -2000	100-004718-G00X*
TDX-2000W	100-000921-G00X*
RDX-2000	631-000918-G00X*
BDX-2000	100-002157-G00X*
TDX-2000 Dual Cabinet	100-006240-G00X*
*Indicates all possible group numbers (G001, G002, etc.)	

Obsolescence Description and Important Dates

The Target Data Extractor was introduced to the market in 2001. Due to component obsolescence, the current configuration has now reached its final availability and end of life.

Saab Sensis can no longer support new orders or the repair of the TDX system or any of its components.

End of Life Announcement Date	7-31-2015
Date of Last Repair	7-31-2015
Date of Last Assistance on Product	7-31-2015
Estimated Date of Last Order for New TDX Spares	Until Inventory Depleted

Saab Sensis is able to accept orders for some new TDX boards which are in inventory. A schedule of the remaining TDX inventory is provided below. For pricing information, please contact Saab Sensis Customer Service at customerservice@saabsensis.com or telephone +1-315-445-5000.

Please note that orders for the remaining inventory will be accepted on a first come first served basis until our inventory is depleted. All sales of remaining inventory exclude any type of warranty.
