Saab Australia provides situational awareness, incident/response management and streamlined communication solutions for a wide range of infrastructure applications.

Based on Saab’s battle-proven defence research, design and integration experience OneView is the ultimate security solution for any at-risk, volatile environment.

Saab Australia is a Defence, Security and Air Traffic Management solutions provider specializing in computer-based command, control and communication systems. With a reputation for high reliability, mission critical systems and complex systems integration, the business has proven its capabilities in Australia for thirty years.

Saab Australia is part of Saab AB, one of the world's leading high-technology companies, with major operations in defence, aviation and civil security engineering. In today's complex and turbulent world, Saab's thinking edge is behind the innovative products and solution which are helping to safeguard people and society.

EVERYONE DESERVES TO FEEL SAFE

It’s a basic human need to feel safe. We believe safety is a human right. Saab has built its international reputation on innovative technologies that keep people and society safe. In Australia we design intelligent civil security solutions to protect people, systems and property. Systems that safeguard businesses and infrastructure from damaging disruption and streamline emergency response protocols to save lives.

EVERYONE DESERVES TO FEEL SAFE

INTELLIGENT SECURITY SYSTEMS TO ANALYSE THREATS, STREAMLINE COMMUNICATION AND AVERT CRISIS FAST

Saab’s OneView™ is a complete security solution which fundamentally changes the crisis response process for all facilities, government, industrial operations, incident management and response using your own pre-programmed instructions, and an integrated communications. The point and click interface is very fast and simple to use so operators are able to remain calm and in control.

Engineered from the ground up to be easy to learn, operate and extend as situations and threat change. OneView is the ultimate solution for protecting any vulnerability—infrastructure, assets and people. OneView integrates all of your security systems into one easy view. It brings order, clarity and control providing only the information you need.

INTELLIGENT SECURITY SYSTEMS TO ANALYSE THREATS, STREAMLINE COMMUNICATION AND AVERT CRISIS FAST

SAFETY

INTELLIGENT SECURITY SYSTEMS TO ANALYSE THREATS, STREAMLINE COMMUNICATION AND AVERT CRISIS FAST

KNOW FIRST ACT FAST

• Situational awareness: Sufficient information to manage expectations and react swiftly
• Incident management and response: Track and task resources for immediate response
• Integrated communications: Across all applications at all times

INTELLIGENT SECURITY SYSTEMS TO ANALYSE THREATS, STREAMLINE COMMUNICATION AND AVERT CRISIS FAST

VENDORS - ADVANTAGES

OneView provides an intuitive interface, simplified system management and control, while providing integrated communications across all frequencies and devices.

INTELLIGENT SECURITY SYSTEMS TO ANALYSE THREATS, STREAMLINE COMMUNICATION AND AVERT CRISIS FAST

SITUATIONAL AWARENESS

Series built-in events are linked to a user-defined log that tracks all system activity in real-time. Any user can access the log at any time and from any location.

INTELLIGENT SECURITY SYSTEMS TO ANALYSE THREATS, STREAMLINE COMMUNICATION AND AVERT CRISIS FAST

REPORTING

Customisable reporting from the system log to meet all regular status reporting and ad hoc post-action analysis and reporting requirements.

INTELLIGENT SECURITY SYSTEMS TO ANALYSE THREATS, STREAMLINE COMMUNICATION AND AVERT CRISIS FAST

DYNAMIC HIERARCHICAL CONTROL

Control of sub-systems can be routed to specific operator stations quickly and easily. This means facility control can be centralised or decentralised at will depending on operational circumstances.

INTELLIGENT SECURITY SYSTEMS TO ANALYSE THREATS, STREAMLINE COMMUNICATION AND AVERT CRISIS FAST

OPERATOR ROLES

Operator roles can be granted different views and privileges to tailor the operator station to their role, ensuring system integrity and enabling functionality as required.

INTELLIGENT SECURITY SYSTEMS TO ANALYSE THREATS, STREAMLINE COMMUNICATION AND AVERT CRISIS FAST

RESPONSE MANAGEMENT

Commanders are shown a comprehensive overview from the system log to meet all regular status reporting and ad hoc post-action analysis and reporting requirements.
