

SAAB

FFV ORDNANCE

84 MM TPT 141

Cost-effective training

The ideal round for reducing training costs, while retaining the sensation of firing combat ammunition

The TPT 141 inert round for the Carl-Gustaf® M4 is fitted with a tracer that is visible throughout the trajectory at ranges out to 400 m. The burn time of the tracer is approximately 2 seconds. The projectile and propelling charge of the TPT 141 round have been adapted to match the ballistics of the 84 mm HEAT round out to 300 meters.

SAAB

Two-man Carl-Gustaf® crew on firing range

REALISTIC OPERATION

The loading, aiming and firing operations are the same as when firing live Carl-Gustaf® ammunition.

LOW CONFLICT

The TPT 141 is also beneficial for use during a low conflict scenario when less collateral damage is of importance.

Less lethal damage

Technical data

Complete round weight	2.5 kg
Effective range	300 m

Status	Fielded
Ammunition type	Full-calibre training
Warhead design	Inert
